Biohazard Waste Reminders

1) Waste must be **DOUBLE BAGGED**. The primary bag should be closed and placed into a second red biohazard bag.

2) Both primary and secondary bag must be **CLOSED** (preferably with zip ties). Bags must meet ASTM D1709 and ASTM D1922 standards.

3) The second bag should be labeled with the **date** of generation, **PIs name** and **lab’s room number** (i.e. B360A).

4) Only **RED** biohazard bags are accepted

5) **NO LIQUIDS** allowed inside bags
   a. Consult EH&S for liquid biohazard waste questions or concerns.
